- | | |
|--|--------|
| 1. Install Google Fonts (links included) | page 4 |
| 2. Install Font Icons (included) | page 4 |
| 3. Drag and drop images | page 5 |
| 4. Edit Slide Master | page 6 |
| 5. Need help? | page 7 |
| 6. Get \$5 OFF an any template | page 7 |

If you have any questions, please email me at dimaisakoff@gmail.com.

Install Google Fonts

If these fonts are not installed on your machine, the fonts will be automatically corrected when you open the file for the first time. It is recommended to duplicate the original file and work with this copy.

1. Install Google fonts:

PT Sans – <https://fonts.google.com/specimen/PT+Sans>

Roboto – <https://fonts.google.com/specimen/Roboto>

2. Find and install Font Icons:

BRONX Presentation Template/02_Theme files/Font Icons/Fontello/Font/fontello.ttf

Photos

*Please note, preview images are NOT included into Template!
You can download them following the links:*

DI.

Drag and drop images

For Powerpoint:

1. Find an image you wish to add.
2. Drag and Drop to the corresponding media placeholder.
3. Right click and select the 'Reset slide' option.
4. Right click the media placeholder and select the 'Send to Back' option.

It's Ready

For Keynote:

1. Select an image and drag it to an placeholder.
2. Drop it once the blue border appears.
3. To change the image, just double-click it.
4. To repeat a slide, right click and select the Reapply Master to Slide option. The default slide will be restored.

It's Ready

DI.

Edit Slide Master

For Powerpoint:

1. Switch to the 'View' tab.
2. Select 'Master'.
3. Select 'Slide Master'.
4. Apply any changes you need.
5. Save.
6. Close 'Slide Master'.

It's ready

For Keynote:

1. You can quickly change any object. These changes will be saved without changing the master slide.
2. If you want to change the master slide, open the 'Edit Master Slide' panel. To apply the changes to the master slide, just click the 'Done' button.

It's Ready

NOTE:

Try out different elements to achieve your main goal.

This pack is designed for different purposes so that you could adjust it to any task.
