

USER GUIDE

Thank you for Purchasing my Resume

Download and Install free Fonts first.

First of all I recommend to Download and Install free Fonts. You can Find them here :

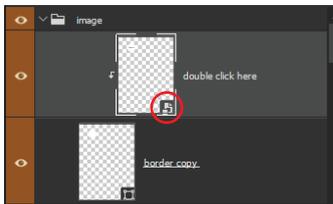

<https://www.fontsquirrel.com/fonts/montserrat>

How to Customize

1. Photoshop :

☐ Open the PSD file with Photoshop and select the text  tool, to edit the text.

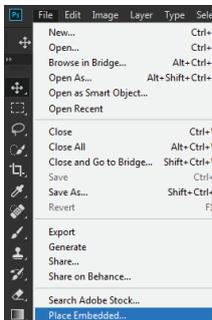

☐ Now you can Place a Logo of your, inside the round place area. Check the Layers panel . There is a Orange marked folder. Click the right arrow then you will find a Smart object ; Double click here.

A New Window will Open. Now Drag and Drop your Logo here, or go to :

File → **Place Embedded** --- select your Logo and Place it.

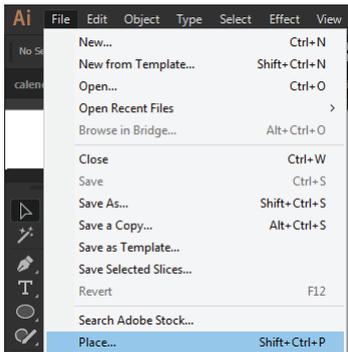

once you are done press **ctrl+S** and Place it. Save and Close the File. Now You can see your Logo on the Document

☐ To change Color, Select the objects layer and double click on it. Color picker window will appear and select your expected color from it.

2. Illustrator :

- ☐ Select the logo by using selection tool. Delete it and place your expected logo.
To place your logo go to : **File**→**Place** , now select your Logo and Place it.

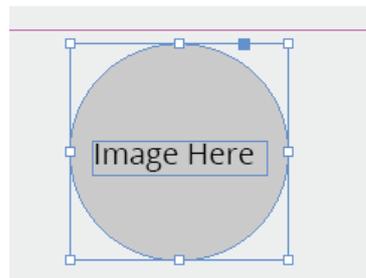

- ☐ Select Text tool and Click on the Text Boxes to edit Text.
- ☐ To Change Color, Select the Objects and go to the Color palette. Select your expected Color from it.

3. Microsoft Word

- ☐ To change logo, Select the Logo and delete it. Insert your Logo.
- ☐ For Text, Select the Text and Replace by your Expected Texts.
- ☐ To Change Object Colors : Double click on it; Look on to the Format menu, it's already selected. Change the Shape fill color.
- ☐ To Increase or Decrease the Bar in **SKILLS** Category, Just Select the Bar and Drag from the Right Point.
- ☐ For Better Print Save your Document into PDF Format.

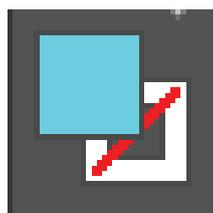

4. InDesign

- ☐ Delete Image here text first. Select the image placeholder by using selection tool. Place your expected logo. To place your image go to : **File** → **Place** , now select your image and Place it.

- ☐ Select  Type tool and double Click on the Text Boxes to edit Text.

- ☐ To Change Color, Select the Objects and go to the Color palette. Select your expected Color from it.

Congratulations ! You are done.

If you find any problem to that, please let me know by using the GraphicRiver profile.

Have Fun with the Resume Template and **Rate** if you Like it.
